

What apple category are you classified in? Basic Number and Classification Tables of Apple Types

There are 12 types of apple.

Which type of apple are you?

Find your basic number with your birth year and month and add your birth date.

Now you can find your type of apple. Let's start now.

【How to Classify Apple Types】

① Find your **basic number** where your birth year and month intersect.

<e.g.> If you were born in November 1972, your basic number is “32”.

② Add your birthday to your basic number.

<e.g.> If you were born on the 6th, add “6” to your basic number “32” so the sum total is “38”.

③ Look for the number of the sum total in **The Classification Tables of Apple Types** on page 67.

<e.g.> The apple of number 38 corresponds to “Starking Delicious”.

【In Case the Sum Total of your Basic Number and your Birthday is More than 61】

Subtract 60 from the sum total.

<e.g.> If your sum total is 82, subtract 60 from 82. 82 minus 60 is 22. Look for 22 in the Classification Tables of Apple Types on page 67. You are Waringo.
